BY THE BOARD:

On January 22, 2002 United Telephone Company of New Jersey Inc. (Petitioner or United) filed a petition with the Board of Public Utilities (Board) to clarify regulations under which Advanced Business Connection (ABC) service is available to subscribers.

The purpose of the filing is to reduce the number of lines required to obtain ABC service from a minimum of two lines per station to one line for each station instrument that is connected to United's network. Individual rates will remain the same and total customer bills may decrease if customers reduce the number of lines they subscribe to. The petition has no adverse effect on the petitioner's ability to provide safe, adequate and proper service.

THE Board FINDS that the Petitioner's request should be granted and HEREBY APPROVES the Petitioner's request.
